WHO IS THIS COURSE FOR?

Any person seeking information in the areas of Stormwater, the Construction General Permit, Erosion Control, Vegetation Establishment, etc. The Presentation Modules include:

**NPDES RULES AND REGULATIONS
CONSTRUCTION SITE STORMWATER STRATEGIES
PREDICTING SOIL LOSS
STORMWATER RUNOFF CONTROL
SOIL STABILIZATION
SEDIMENT CONTROL**

The Presentation Modules review material contained in the Study Guide and the CPESC examination.

PURPOSE OF PROGRAM

The public demands evidence of professional competence from persons whose activities affect the physical and economical well being of people throughout the world. Such professionals increasingly must be able to show evidence of their qualifications. The CPESC, Inc. certifies individuals based on thorough examination and review of an individual's educational, scientific and service activities in both the public and private sector. CPESC, Inc. has developed standards and procedures for certifying persons qualified to practice in the field of erosion and sediment control.

For information on the benefits and process for certification, see www.envirocertintl.org and the California NPDES Construction General Permit: www.waterboards.ca.gov/water_issues/programs/stormwater/constpermits.shtml
